

Volunteering Under the Levels

- Keeping you and your community safe during a pandemic

Level 4

Formal volunteering only

Volunteering in the community under the direction of an established essential service organisation only

Volunteers must follow strict guidelines while volunteering with the essential service to keep the community safe

Virtual/online/phone volunteering is recommended as the safest volunteering option

Level 3

Formal volunteering only

Volunteering under the direction of an established essential service organisation only

Volunteers must follow strict guidelines while volunteering with the essential service to keep the community safe

Virtual/online/phone volunteering is recommended as the safest volunteering option

Level 2

Formal volunteering only

Essential service volunteering under an established organisation

Volunteer training in formal essential roles can restart, as long as it is with less than 100 people indoors with strict H&S.

Virtual/online/phone volunteering is still recommended as the safest option.

Social distancing and health and safety rules still apply.

Level 1

Formal, informal, virtual and spontaneous volunteering.

Volunteering in formal non-essential roles and informal roles can restart, but with an emphasis on keeping people well.

Those at risk - over 70 or immunocompromised - should not be volunteering in the community but can still do valuable work as virtual/online/phone volunteers.

At all levels, volunteers must not have been unwell or travelled overseas in the last 14 days; nor suspect they have been in contact with someone who has been unwell.
