## TRUST INFORMATION

### Trust Entity

The financial statements represented are those for the reporting entity Community Trust South (the "Parent"), its subsidiaries and associates (together the "Group").

Community Trust South ("the Trust") was formed under the Trustee Banks Restructuring Act 1988 and was incorporated under the Charitable Trusts Act 1957. The Trust, previously known as The Community Trust of Southland, rebranded on 27 September 2018.

The financial statements comply with the Financial Reporting Act 2013 and the Community Trusts Act 1999.

As a not-for-profit Public Benefit Entity (PBE) domiciled in Invercargill New Zealand, the Trust distributes grants to qualifying organisations in the South region, Stewart Island, Queenstown, Arrowtown and Glenorchy. Through its granting programme the Trust aspires to achieve a thriving South by engaging in effective and innovative philanthropy and grantmaking, demonstrate our commitment to Te Tiriti a Waitangi principles, and to protect and grow our investment fund for the benefit of our community and future generations.

### Group Structure

Community Trust South Group consists of the Trust and its controlled entities Invest South GP Limited, Invest South Limited Partnership, and Back Country Foods Limited. Controlled entities are all those entities over which the Trust has the power to govern the financial and operating policies of other entities so as to benefit from that entity's activities.

### Trustees

The Trust is governed by a Board consisting of up to ten trustees appointed by the Minister of Finance. Trustees are appointed for an initial term of up to four years and may, at the conclusion of their term, be appointed for a further term of up to four years. The Governance Charter provides the framework under which the Board and its Committees operate.

Trustees at 31 March 2019 were:

Trustee	Date Appointed
Margot Hishon (Chair)	June 2015
Lindsay Wright (Deputy Chair)	July 2013
Richard Wason	October 2012
Penny Simmonds	October 2012
Trish Boyle	July 2013
Mata Cherrington	June 2015
Stephen O'Connor	June 2015
Warren Skerrett	June 2016
John Wyeth	June 2017
Michael Wilson	July 2018

The Board's workload is allocated to the following Committees:

- Investment
- GM performance review
- Audit, finance and risk management

**Management**

The management and staff consist of:

Jackie Flutey	General manager
Dianne Williams	Grants manager
Robyn Koehler	Research manager
Jennifer Hay	Accountant
Ngaire Hamilton	Trust administrator
Nikki Dermody	Marketing and communication advisor
Anna Howard	Funding advisor

**Auditor**

PricewaterhouseCoopers

**Legal Counsel**

Preston Russell Law, Invercargill

**Investment Advisor**

Aon Hewitt, Wellington

**Main Sources of Cash and Resources**

The Trust's main source of funds is from returns on its diversified investment portfolio. During the last financial year the portfolio has earned an annual investment return of 5.4% (2018: 6.7%).

## STATEMENT OF ACCOUNTING POLICIES AND EXPLANATORY NOTES

### 1. Reporting Entity

The financial statements represented are those for the reporting entity Community Trust South (the "Parent"), its subsidiaries and associates (together the "Group").

Community Trust South ("the Trust") was formed under the Trustee Banks Restructuring Act 1988 and was incorporated under the Charitable Trusts Act 1957.

The financial statements comply with the Financial Reporting Act 2013 and the Community Trusts Act 1999.

These financial statements have been approved for issue by the Trustees on 8 August 2019.

### 2. Statement of Accounting Policies

#### Statement of Compliance

The financial statements of the group have been prepared in accordance with Generally Accepted Accounting Practice in New Zealand ('NZ GAAP'). The Parent and Group are considered public benefit entities for financial reporting purposes.

The financial statements have been prepared in accordance with generally accepted accounting practice in New Zealand, and comply with Public Benefit Entity Standards Reduced Disclosure Regime ("PBE Standards RDR") as appropriate for Tier 2 not-for-profit public benefit entities.

The group qualifies and has elected to prepare financial statements as a Tier 2 reporting entity as total expenditure is less than \$30 million, and the group is not considered publicly accountable as defined by XRB A1.

#### (a) Basis of preparation

The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

##### *(i) Historical cost convention*

The financial statements have been prepared on the basis of historical cost as modified by the revaluation of certain assets as identified in specific accounting policies below.

##### *(ii) Presentation and functional currency*

These financial statements are presented in New Zealand dollars, which is the Group's functional and presentation currency. All figures are rounded to the nearest thousand dollars.

##### *(iii) Going Concern assumption*

These financial statements have been prepared on a going concern basis.

##### *(iv) Selection of accounting policies*

Accounting policies are selected and applied in a manner which ensures that the resulting financial information satisfies the concepts of relevance and reliability, thereby ensuring that the substance of the underlying transactions or other events is reported.

## 2. Statement of Accounting Policies (Cont'd)

### (v) Critical Accounting Estimates & Judgements

In the application of NZ PBE IPSAS management is required to make judgements, estimates and assumptions about carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstance, the results of which form the basis of making the judgements. Actual results may differ to these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revisions affect only that period or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the critical judgements and key sources of estimate uncertainty:

- *Assessing impairment of investments*

The group follows the guidance in PBE IPSAS 26 and PBE IPSAS 29 to determine when an investment is impaired. The determination requires significant judgement. In making this judgement, the group evaluates, among other factors, the duration and extent to which the recoverable amount of an investment is less than its carrying value; and the financial health of and short-term business outlook of the investee, including factors such as industry and sector performance, changes in technology and operational and financing cash flow.

- *Assessing fair value of financial instruments*

Judgement is required in calculating the fair value of financial instruments. Fair value is based on inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs). Refer to note 22.

### (b) Principles of consolidation

The Group financial statements incorporate the financial statements of the Trust and all entities controlled by the Trust (its subsidiaries) that comprise the Group, being Community Trust South (the parent entity) and its controlled entities, Invest South GP Limited, Invest South Limited Partnership and Back Country Foods Limited.

Controlled entities are all those entities over which the Group has the power to govern the financial and operating policies of other entities so as to benefit from that entity's activities.

Controlled entities which form part of the Group are consolidated from the date on which control is transferred to the Company. They are de-consolidated from the date that control ceases. Invest South Holdings Limited was struck off the Companies Office on 24 January 2018.

The acquisition method of accounting is used to account for the acquisition of controlled entities by the Group. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the acquisition. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date, irrespective of the extent of any minority interest.

The excess of the cost of acquisition over the fair value of the Group's share of the identifiable net assets acquired is recorded as goodwill. If the cost of acquisition is less than the Group's share of the fair value of the identifiable net assets of the subsidiary acquired, the difference is recognised directly in the surplus or deficit.

Intercompany transactions, balances and unrealised gains on transactions between subsidiary companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred.

## 2. Statement of Accounting Policies (Cont'd)

### *(i) Transactions with minority interests*

The Group treats transactions with minority interests as transactions with equity owners of the Group. For purchases from minority interests, the difference between any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to minority interests are also recorded in equity.

### *(ii) Associates*

Associates are all entities over which the Group has significant influence but not control, generally evidenced by a holding of between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting and are initially recognised at cost. The Group's investment in associates includes goodwill identified on acquisition, net of any accumulated impairment loss.

The Group's share of its associates' post-acquisition profits or losses is recognised in the surplus or deficit for the year, and its share of post-acquisition movements in reserves is recognised in other comprehensive revenue and expense. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate.

Unrealised gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group. Dilution gains and losses arising in investments in associates are recognised in the surplus or deficit for the year.

### *(c) Income tax*

The Parent is exempt from income tax under section CW52 of the Income Tax Act 2007.

The Group's current year income tax for the period is calculated by reference to the amount of income taxes payable or recoverable in respect of the taxable profit or tax loss for the period. It is calculated using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Current tax for current and prior periods is recognised as a liability (or asset) to the extent that it is unpaid (or refundable).

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that such taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary differences arise from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary differences arise from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

Community Trust South  
Financial Statements  
For the year ended 31 March 2019  
in New Zealand Dollars (\$000s)

2. Statement of Accounting Policies (Cont'd)

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the accounting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

(d) Exchange revenues

Exchange revenue is measured at the fair value of the consideration received or receivable. Such revenue is reduced for estimated customer returns, rebates and other similar allowances.

*(i) Sales of goods*

Sales of goods are recognised when a Group entity has transferred the significant risks and rewards of ownership of the goods to the customer. Retail sales are usually made by cash or by credit card. The recorded revenue is the gross amount of sale, including credit card fees payable for the transaction. Such fees are included in distribution costs.

*(ii) Sales of services*

Sales of services are recognised in the accounting period in which the services are rendered, by reference to completion of the specific transaction assessed on the basis of the actual service provided as a proportion of the total services to be provided.

*(iii) Interest income*

Interest income is recognised using the effective interest method. When a loan and receivable is impaired, the Group reduces the carrying amount to its recoverable amount, being the estimated future cash flow discounted at the original effective interest rate of the instrument, and continues unwinding the discount as interest income. Interest income on impaired loan and receivables are recognised using the original effective interest rate.

*(iv) Dividend income*

Dividend income is recognised when the right to receive payment is established.

(e) Non-exchange revenue

The recognition of non-exchange revenue from grants, donations, legacies and bequests depends on the nature of any stipulations attached to the inflow of resources received, and whether this creates a liability (i.e. present obligation) rather than the recognition of revenue. Stipulations that are conditions that specifically require the Group to return the inflow of resources received if they are not utilised in the way stipulated, resulting in the recognition of a non-exchange liability that is subsequently recognised as non-exchange revenue as and when the conditions are satisfied. Stipulations may exist that are in essence restrictions - which do not specifically require the Group to return the inflow of resources received if they are not utilised in the way stipulated. Such stipulations therefore do not result in the recognition of a non-exchange liability, and do result in the immediate recognition of non-exchange revenue.

(f) Goods and Services Tax (GST)

The statements of comprehensive revenue and expense have been prepared so that all components are stated exclusive of GST. All items in the statements of financial position are stated net of GST, with the exception of receivables and payables, which include GST invoiced.

## 2. Statement of Accounting Policies (Cont'd)

### (g) Impairment of non-financial assets

All non-financial assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use.

Cash-generating assets are assets held with the primary objective of generating a commercial return. An asset generates a commercial return when it is deployed in a manner consistent with that adopted by a profit-oriented entity.

For cash generating assets, value in use is determined by estimating future cash flows from the use and ultimate disposal of the asset and discounting these to their present value using a pre-tax discount rate that reflects current market rates and the risks specific to the assets.

For non-cash generating assets, value in use is determined using an approach based on either a depreciated replacement cost approach, restoration cost approach, or a service units approach - depending on the nature of the asset and impairment, and the availability of information.

### (h) Inventories

Inventories are stated at the lower of cost and net realisable value. Costs including an appropriate portion of fixed and variable overhead expenses are assigned to inventories by the method most appropriate to the particular class of inventory, with the majority being valued on a first-in-first-out basis. Net realisable value represents the estimated selling price less all estimated costs of completion and costs necessary to make the sale.

### (i) Property, plant & equipment

Property, plant and equipment are those assets held by the Group for the purpose of carrying on its business activities on an ongoing basis.

All plant and equipment is stated at cost less depreciation and impairment. The cost of purchased assets includes the original purchase consideration given to acquire the assets, and the value of other directly attributable costs that have been incurred in bringing the assets to the location and condition necessary for their intended service.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All repairs and maintenance are charged to the statements of comprehensive revenue and expenses during the financial period in which they are incurred.

Depreciation is charged so as to write off the cost of assets, other than freehold land, over their estimated useful lives, using the straight-line or diminishing value method. The estimated useful lives, residual values and depreciation methods are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis.

The following rates have been used:

Buildings	3 - 12.5%	Straight line
Plant & machinery	8 - 80%	Diminishing value
Leasehold alteration	3 - 40%	Diminishing value
Office equipment	8 - 67%	Diminishing value

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the surplus or deficit for the year.

Community Trust South  
Financial Statements  
For the year ended 31 March 2019  
*In New Zealand Dollars (\$000s)*

2. Statement of Accounting Policies (Cont'd)

Land and buildings are measured at fair value and were revalued at 31 March 2019. Fair value is determined on the basis of an annual independent valuation prepared by external valuation experts, based on a discounted cash flows or capitalisation of net income approach. The fair values are recognised in the financial statements of the Trust, and are reviewed at the end of each reporting period to ensure the carrying value of land and buildings is not materially different from their fair values.

Any revaluation increase arising on the revaluation of land and buildings is credited to the asset revaluation reserve, except to the extent that it reverses a revaluation decrease for the same asset previously recognised as an expense in surplus or deficit, in which case the increase is credited to the surplus or deficit to the extent of the decrease previously charged. A decrease in the carrying amount arising on the revaluation of land and buildings is charged as an expense in the surplus or deficit to the extent it exceeds the balance, if any, held in the asset revaluation reserve relating to a previous revaluation of the asset.

Depreciation on revalued buildings is charged to surplus or deficit. On the subsequent sale of the revalued property, the attributable revaluation surplus remaining in the asset revaluation reserve, net of any related deferred taxes, is transferred directly to retained earnings.

(j) Trade and other receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost, less provision for doubtful debts.

Collectability of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off as bad debts in the period in which they are identified. A provision for doubtful receivables is established when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of receivables. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the effective interest rate. The amount of the provision is recognised in the surplus or deficit.

(k) Cash and cash equivalents

Cash and cash equivalents includes cash on hand, bank overdrafts, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(l) Currency translation

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the surplus or deficit.

(m) Employee entitlements

Liabilities for wages and salaries (including non-monetary benefits and annual leave) to be settled within 12 months of the reporting date are recognised in employee entitlements in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled. Liabilities for non-accumulating sick leave are recognised when the leave is taken and measured at the rates paid or payable.

(n) Investments in subsidiaries and associates

Investment in subsidiaries and associates in the parent financial statements are stated at cost less any impairment losses.

## 2. Statement of Accounting Policies (Cont'd)

### (o) Trade and other payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or in the normal operating cycle of the business if longer. If not, they are presented as non-current liabilities. Trade payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

### (p) Operating leases

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the statement of comprehensive revenue and expense on a straight-line basis over the period of the lease.

### (q) Goodwill

Goodwill represents the excess of the purchase consideration over the fair value of the identifiable tangible and identifiable intangible assets, liabilities and contingent liabilities of the subsidiary recognised at the time of acquisition of a business or subsidiary. Goodwill is initially recognised as an asset at cost and is subsequently measured at cost less any accumulated impairment losses.

For the purpose of impairment testing, goodwill is allocated to each of the Group's cash-generating units expected to benefit from the synergies of the combination. Cash-generating units to which goodwill has been allocated are tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit. An impairment loss recognised for goodwill is not reversed in a subsequent period.

On disposal of a subsidiary, the attributable amount of goodwill is included in the determination of the surplus or deficit on disposal.

### (r) Statements of cash flows

The Statements of Cash Flows are prepared exclusive of goods and services tax (GST), which is consistent with the method used in the statements of comprehensive income

'Operating activities' represents all transactions and other events that are not investing or financing activities.

'Investing activities' are those activities relating to the acquisition and disposal of property, plant & equipment and investments.

### (s) Financial assets & liabilities

#### (i) Investments

Investments are recognised and derecognised on trade date where the purchase or sale of an investment is under a contract whose terms require delivery of the investment within the time frame established by the market concerned, and are recognised at fair value through surplus or deficit.

Community Trust South  
Financial Statements  
For the year ended 31 March 2019  
in New Zealand Dollars (\$000s)

2. Statement of Accounting Policies (Cont'd)

*(ii) Financial Assets*

Financial assets are classified into the following specified categories; financial assets "at fair value through surplus or deficit" (or "FVTSD"), "held to maturity" investments, "available for sale" financial assets, and "loans and receivables". The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

*(iii) Financial Assets at Fair Value Through Surplus or Deficit*

The Group classifies its managed funds and investments in listed and unlisted equities as financial assets at fair value through surplus or deficit. These financial assets are designated by management at fair value through surplus or deficit at inception.

Financial assets designated at fair value through surplus or deficit at inception are those that are managed and their performance evaluated on a fair value basis in accordance with the Trust's documented investment strategy and for which information is provided internally to key management personnel on that basis.

Regular-way purchases and sales of managed funds are recognised on the trade date - the date on which the Group commits to purchase or sell the investment. Investments are derecognised when the rights to receive cash flows from the managed funds have expired or the Group has transferred substantially all risks and rewards of ownership.

Financial assets at fair value through surplus or deficit are initially recognised at fair value. Transaction costs are expensed in the surplus or deficit. Subsequent to initial recognition, all financial assets at fair value through surplus or deficit are measured at fair value. Gains and losses arising from changes in the fair value are presented in the surplus or deficit in the period in which they arise. Interest income from financial assets at fair value through surplus or deficit is recognised in the surplus or deficit as part of the gains and losses arising from changes in the fair value. Dividend income from financial assets at fair value through surplus or deficit is recognised in the surplus or deficit as part of the gains and losses arising from changes in the fair value when the Group's right to receive payments is established.

*(iv) Loans & Receivables*

Loans and Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market.

Accounts receivable, advances to third parties, short term deposits and trust advances are carried at amortised cost using the effective interest method less impairment.

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset, or where appropriate, a shorter period, to the net carrying amount of the financial asset.

Concessionary loans issued are loans issued to third parties at rates and/or terms below market. Any difference between fair value and transaction price of the concessionary loan at initial recognition is recognised as a finance cost in surplus or deficit.

*(v) Available-for-sale financial assets*

Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless the investment matures or management intends to dispose of it within 12 months of the end of the reporting period.

## 2. Statement of Accounting Policies (Cont'd)

### *(vi) Impairment of Financial Assets*

Financial assets, other than those at fair value through surplus or deficit, are assessed for indicators of impairment at each balance sheet date. Financial assets are impaired where there is objective evidence that as a result of one or more events that occurred after the initial recognition of the financial asset the estimated future cash flows of the investment have been impacted. For financial assets carried at amortised cost, the amount of the impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of accounts receivable where the carrying amount is reduced through the use of an allowance account. When a trade receivable is uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognised in surplus or deficit.

If in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through surplus or deficit to the extent the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

### *(i) Other Financial Liabilities*

Other liabilities include accounts payable and grants committed not paid.

Other financial liabilities are initially measured at fair value, net of transaction costs and are subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective yield basis. The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period, to the net carrying amount of the financial liability.

## 3. Interest

		1,257	1,502	2,759

5. Grants

Grants to eligible organisations are recognised as an expense in the Statement of Comprehensive Revenue and Expense when they are approved by the Trustees of the Group. Payments to grant recipients are made on the satisfaction of specified funding conditions. Grants covering multiple years are recognised as a commitment in principal for future years.

	Group		Parent	
	2019	2018	2019	2018
Grants approved in current year	7,685	6,389	7,685	6,389
Grants withdrawn for current year	(22)	(11)	(22)	(11)
Grants withdrawn for prior years*	(170)	(5,100)	(170)	(5,100)
Grants repaid	(1)	(87)	(1)	(87)
Scholarships repayable	(65)	(12)	(65)	(12)
Grants approved in principal relating to future years	618	434	618	434
	8,055	1,613	8,055	1,613

\*the amount \$5,100 relates to approved grants in April 2010, the recipients did not proceed with the projects as planned and the grants have been withdrawn.

6. Taxation

a) Income tax recognised in surplus or deficit

Current tax expense

<b>8. Reserves</b>				
Capital maintenance reserve	106,893	103,244	88,452	84,803
Grants maintenance reserve	(33,449)	(32,814)	(26,398)	(23,767)
Asset revaluation reserve	398	-	398	-
	73,842	70,430	62,452	61,036

*(i) Capital Maintenance Reserve*

The Capital Maintenance Reserve represents the additional amount necessary to preserve the real value of the Trust Capital allowing for inflation as measured by the Consumers Price Index (all groups), and payments of grants out of capital.

*(ii) Grants Maintenance Reserve*

While the Trustees have adopted a long-term investment strategy, they accept that annual returns from investments are likely to fluctuate from year to year. In recognition of this a Grants Maintenance Reserve is maintained. In years when net income from investments is higher than the grant levels, surplus income will be transferred to this reserve. In years when there is insufficient income to sustain the level of grants, an appropriate amount will be transferred from the Grants Maintenance Reserve to accumulated revenue and expenses.

*(iii) Asset Revaluation Reserve*

The Asset Maintenance Reserve reflects the gains/(losses) resulting from the revaluation of land and buildings. These movements in fair value are reflected through the Statement of Comprehensive Revenue and Expenses.

Community Trust South  
Financial Statements  
For the year ended 31 March 2019  
In New Zealand Dollars (\$000s)

9. Grant Obligations

Grants approved by the Board but unpaid at balance date are recognised as Current Liabilities. For grants that cover multiple years, the portion that relates to future years, which has been approved in principal by the board are recognised as Non-Current Liabilities.

Commitments of \$6,551,271 (2018: \$4,960,197) exist for grants of the Group and \$6,551,271 (2018: \$4,960,197) for the Parent which will be distributed from either capital or income sources in future years.

	Group		Parent	
	2019	2018	2019	2018
Balance at 1 April	4,960	11,389	4,960	11,389
Grants approved in current year	7,685	6,390	7,685	6,390
Grants paid in current year	(6,520)	(8,142)	(6,520)	(8,142)
Grants approved in principal relating to future years	618	434	618	434
Grants withdrawn for current year	(22)	(11)	(22)	(11)
Grants withdrawn for prior years	(170)	(5,100)	(170)	(5,100)
	6,551	4,960	6,551	4,960

The years in which these commitments fall due are as follows:

Current	3,690	2,651	3,690	2,651
Within 1-2 years	1,862	1,504	1,862	1,504
Within 2-3 years	999	805	999	805
	6,551	4,960	6,551	4,960

10. Accounts Receivable

Trade receivables	62	602	48	103
Allowance for doubtful debts	-	-	-	-
Managed funds transfers	621	620	621	620
	683	1,222	669	723

The allowance for doubtful debts in relation to trade receivables is provided for based on estimated irrecoverable amounts determined by reference to current customer circumstances and past default experience. In determining the recoverability of a trade receivable the Group considers any change in the credit quality of the trade receivable from the date the credit was initially granted up to the reporting date.

Closing balance	<u>1,745</u>	<u>520</u>	<u>1,745</u>	<u>520</u>

Concessionary loans are interest free, with the exception being Murchison Villas Ltd, which incurs interest at a fixed rate of 4% which is capitalised to the loan. To comply with PBE Standards, all interest free loans have been discounted to present value at the assessed market rate of 5.95%. This has resulted in \$75,138 being recorded as an expense this year (2018: \$15,585). The discount reflecting the market interest rate will be unwound by the discount being returned through the surplus or deficit.

Cash							16,729					16,729
Private Equity		525						1,867			2,571	4,963
Infrastructure	10,075					2,305						12,380
Property	7,522											7,522
<b>Total</b>	<b>17,597</b>	<b>525</b>	<b>37,932</b>	<b>31,180</b>	<b>25,037</b>	<b>2,305</b>	<b>40,456</b>	<b>1,867</b>	<b>39,559</b>	<b>11,257</b>	<b>2,571</b>	<b>210,286</b>

Exposure to currency, interest rate and credit risk arises in the normal course of the fund managers' management of the managed funds. A range of hedging policies are in place whereby the fund managers use derivative financial instruments as a means of managing exposure to fluctuations in foreign exchange rates and interest rates. While these financial instruments are subject to the risk of market rates changing subsequent to acquisition, such changes would generally be offset by opposite effects and the items being hedged.

Fair Value Measurement

The following table details the basis for the valuation of financial assets measured at fair value. This includes those financial assets that are fair valued through the surplus or deficit. Fair value is the amount for which an asset could be exchanged or a liability settled, between knowledgeable, willing parties in an arm's length transaction. Fair Value may be determined using different methods depending on the type of asset.

Asset category	Basis of fair value measurement
Australasian equities - Elevation Capital, Platinum, Mint, Salt	Based on quoted market prices at the balance sheet date
Overseas equities - Elevation Capital, Platinum	Based on quoted market prices at the balance sheet date
New Zealand equities & Infrastructure - Mint, Salt, Waterman, Morrison & Co	Based on quoted market prices at the balance sheet date
NZ fixed interest - Nikko	Based on quoted market prices at the balance sheet date where such quoted market prices are available, and otherwise based on valuation techniques that maximise the use of observable market data where it is available and rely as little as possible on entity specific estimates.
Overseas fixed interest - Hunter	
Foreign exchange contracts - BNZ	
Unlisted unit trusts - Nikko	
Australasian private equities - Pioneer, Waterman, Morrison, Direct Capital, AMP	The fair value is based on net asset value of the private equity partnership, determined using valuation techniques such as market multiples, discounted cashflows and precedent transactions using observable inputs where available.
Australasian equities - Direct Capital	<p>In arriving at the fair value for the Direct Capital Portfolio, the Trust has used the fair value assessed by Direct Capital IV Partnership (Direct Capital). Direct Capital has applied the Australian Venture Capital and Private Equity Valuation Guidelines to quarterly revaluations on each Direct Capital IV portfolio company. In addition Direct Capital notes:</p> <ul style="list-style-type: none"> <li>• With consideration towards current and future maintainable financial performance, the multiple of earnings approach is used. The earnings multiple is derived with consideration towards the multiple paid on investment, current industry and competitor multiples and listed equivalents. It is uncommon for the earnings multiple to be changed quarter on quarter.</li> <li>• The resulting enterprise value is then discounted to recognise the private nature of the businesses, which takes into account the less liquid nature of the investment, possible minority interest position, etc. The discount rate used is typically between 10 and 30%.</li> <li>• Finally the last quarterly closing net debt net of any ongoing working capital requirements to calculate Equity Value.</li> </ul> <p>Each valuation is completed following receipt of portfolio company quarterly financial statements. Each year the valuations are audited by KPMG in order to achieve audited special purpose financial statements as at 31 December.</p>

22. Financial Instruments

Financial Risk Management

The Group's activities expose it to a variety of financial risks including market risk (including fair value interest rate risk, cash flow interest rate risk, currency risk, and equity price risk), credit risk and liquidity risk.

The Group has policies to manage the risks associated with financial instruments. The Group is risk averse and seeks to minimise exposure from its treasury activities. The Group has established investment policies. These policies do not allow any transactions that are speculative in nature to be entered into.

Market Risk

The Group's activities expose it primarily to the financial risks of changes in foreign currency exchange rates, interest rates and equity prices. There has been no change to the Group's exposure to market risks or in the manner it manages and measures the risk.

The measures the Trustees have put in place to manage these risks are:

- to retain an investment advisor to advise the Trust as to appropriate investment objectives, policies, and strategies;
- to use external fund managers to undertake the management of the investments; and
- to operate a widely diversified portfolio of investments.

(i) Fair Value Interest Rate Risk

Fair value interest rate risk is the risk that the fair value of a financial instrument will fluctuate due to changes in market interest rates. The Group's exposure to fair value interest rate risk is limited to its fixed rate cash at bank and fixed rate cash and fixed interest deposits with fund managers.

(ii) Cash Flow Interest Rate Risk

Cash flow interest rate risk is the risk that the cash flows from a variable rate financial instrument will fluctuate because of changes in market interest rates. Investments issued at variable interest rates expose the Group to cash flow interest rate risk.

## 22. Financial Instruments (Cont'd)

### (iii) Currency Risk

Currency risk is the risk that the value of a foreign currency denominated financial instrument will fluctuate due to changes in foreign exchange rates.

Foreign exchange risk arises from transactions and recognised assets that are denominated in a currency that is not the Group's functional currency.

### (iv) Equity Price Risk

The Group is exposed to equity price risk. This arises from managed funds held by the Trust and classified as financial assets at fair value through surplus or deficit.

### Credit Risk Management

Credit risk is the risk that a third party will default on its obligation to the Group, causing the Group to incur a loss.

The Group from time to time has significant funds in trading bank deposits. The Group limits risk by spreading the deposits over several trading banks. The Group has not required collateral or other security to support its financial instruments. The Group further limits risk through its policy of placing managed funds with eleven separate fund managers, with each fund manager having an investment mandate which requires that they diversify their instruments on the Group's behalf. The Group has sought and obtained the advice of professional investment advisors prior to making its investment allocations and placement decisions.

### Liquidity Risk Management

Liquidity risk is the risk that the Group will encounter difficulty raising liquid funds to meet commitments as they fall due. Prudent liquidity risk management implies maintaining sufficient cash, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions. The Group aims to maintain flexibility in funding by keeping committed credit lines available.

In meeting its liquidity requirements, the Group maintains a target level of investments that collectively provide liquidity equivalent to an average level of two years' grant distributions allowing for expected interest income.

### Capital Risk Management

The Group's objective when managing Group capital is to safeguard its ability to continue as a going concern so that it can continue to provide returns for the community. The capital structure of the Group consists of Group capital and reserves. The Trustees review the Trust funds and risks associated with the Trust funds, with advice and guidance from the Trust's Investment advisor.

Following the sale of the Trust's shares in Trust Bank New Zealand Limited in April 1996 for \$158,460,000, the Trustees agreed that the value of the Trust at that time should be maintained for the benefit of current and future generations living in the region. For this purpose the Trustees agreed that \$158,460,000 would be considered as the "Trust Capital" value of the Trust. Trustees further agreed that over the long term the net assets of the Trust would not be allowed to reduce to a level below the inflation-adjusted real value of this Trust Capital.

The Trustees have adopted an investment strategy with a targeted long term real annual rate of return of 4.35% (after inflation) of the Trust's capital value. Recognising that actual returns are likely to fluctuate from year to year, the Trust retains the variation from the target in Trust funds so that in years when investment returns are less than the target sufficient funds are available to meet expenditure and make distributions. If the Trust fund falls below the value that needs to be maintained for the benefit of current and future generations the level of expenditure and distributions are reviewed by the Trust.

Community Trust South  
Financial Statements  
For the year ended 31 March 2019  
*in New Zealand Dollars (\$000s)*

22. Financial Instruments (Cont'd)

The Trust's present grants policy is to distribute annually as grants an amount equivalent to 3.25% of the Trust's actual capital base. This amount has been calculated based on the Trustees' long term investment expectations, together with the objective of maintaining the capital value of the fund for the benefit of current and future generations. The need to rebuild capital, and the robustness of the community sector in the Trust's area, will be considerations in any decision to increase or decrease the grants budget. As a result there may be fluctuations between the grants distributed and the actual target.

The Trust uses the services of an investment advisor to pursue an investment policy considered appropriate for the Trust. The Policy aims to achieve a long term asset allocation as follows:

Liquidity – Cash	4%
Income – Cash	1%
Income – NZ Bonds	10%
Income – Overseas Bonds	12.5%
Growth – Infrastructure/Property	12.5%
Growth – Listed Shares	50%
Growth – Unlisted Shares (private equity)	10%
	<hr/>
	100%

Fair Values

Although the General Partner uses its best judgement in estimating the fair value of investments, these are inherent limitations in any estimation techniques. The fair value estimates presented herein are not necessarily indicative of an amount the Group could realise in a current transaction.

IFRS 13 requires the Group to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy shall have the following Levels:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Inputs other than quotes prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices), and

Level 3 – Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The Level in the fair value hierarchy within which the fair value measurement is categorised in its entirety should be determined on the basis of the lowest Level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the General Partner. The General Partner considers observable data to be market data that is readily available, regularly distributable or updated, reliable and verifiable, not proprietary and provided by independent sources that are actively involved in the relevant market.

The following table analyses within the fair value hierarchy the Group's financial assets (by class) measure at fair value on the statement of financial position.

31 March 2019	Level 1	Level 2	Level 3	Total
Financial assets at fair value through profit or loss				
Investment in managed funds	96,610	105,148	12,328	214,086
Unlisted equity securities	-	-	13,683	13,683
	<u>96,610</u>	<u>105,148</u>	<u>26,011</u>	<u>227,769</u>
31 March 2018				
Financial assets at fair value through profit or loss				
Investment in managed funds	95,969	107,049	7,268	210,286
Unlisted equity securities	-	-	14,490	14,490
	<u>95,969</u>	<u>107,049</u>	<u>21,758</u>	<u>224,776</u>

	Investment in managed funds	Unlisted equity securities	Listed NZ equity securities
Balance at 1 April 2018	210,286	14,490	-
Additional investments/transfers	9,015	39	-
Settlements and repayments	(11,616)	(1,744)	-
Change in value of financial assets at fair value through profit or loss	6,400	898	-
Balance at 31 March 2019	<u>214,086</u>	<u>13,683</u>	<u>-</u>
Balance at 1 April 2017	207,869	13,424	435
Additional investments/transfers	-	1,523	-
Settlements and repayments	(7,993)	-	(435)
Change in value of financial assets at fair value through profit or loss	10,410	(457)	-
Balance at 31 March 2018	<u>210,286</u>	<u>14,490</u>	<u>-</u>

Included in profit or loss for the year is a net gain of \$897,784 (31 March 2018: \$(457,714)) relating to level 3 assets held at the end of the reporting year. Fair value gains or losses on those assets are included in "change in fair value of financial assets at FVTPL" in the statement of comprehensive income.

Investments whose values are based on quoted market prices in active markets, and are therefore classified within Level 1, include listed equity securities and the investment in a listed bond fund.

Loans receivable carried at amortised cost using the effective interest method less impairment. The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset, or where appropriate, a shorter period, to the net carrying amount of the financial asset.

It is the trustees determination that the transaction price is the best evidence of fair value for unlisted equities. Therefore where possible they have used recent share purchase/offer price to determine the fair value of unlisted equities. If there have been no recent share transactions or offers then they have used discounted cash flow analysis to determine the fair value.

23. Contingencies

There are no contingent liabilities or contingent assets relating to the Group at 31 March 2019 (2018: Nil).

24. Capital Commitments

In April 2017, the trustee approved a loan for \$1,000,000 and on 24 August 2017 approved a further loan of \$1,250,000 to Murchison Villas Ltd (formerly Fiordland Retirement Housing Trust), at balance date \$973,884 has not been drawn down.

At balance date the Trust had committed a total of \$14m (2018:\$14m) to New Zealand based private equity funds. Of this sum \$11.8m has been drawn down to date (2018:\$7.4m). The calls on the remaining committed funds are made by Fund Managers as further investments are made. The timing of these calls is uncertain.

25. Operating Lease Commitments

The Group leases premises. Commitments for minimum lease payments in relation to non-cancellable operating leases are payable as follows:

## *Independent auditor's report*

To the Trustees of Community Trust South

We have audited the financial statements which comprise:

- the statements of financial position as at 31 March 2019;
- the statements of comprehensive revenue and expense for the year then ended;
- the statements of changes in net assets/equity for the year then ended;
- the statements of cash flows for the year then ended; and
- the explanatory notes to the financial statements, which include a statement of accounting policies.

### *Our opinion*

In our opinion, the accompanying financial statements of Community Trust South (the Trust), present fairly, in all material respects, the financial position of the Trust, as well as the Trust and its controlled entities, together the Group, as at 31 March 2019, their financial performance and their cash flows for the year then ended in accordance with Public Benefit Entity Standards Reduced Disclosure Regime.

---

### *Basis for opinion*

We conducted our audit in accordance with International Standards on Auditing (New Zealand) (ISAs (NZ)) and International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Trust and Group in accordance with Professional and Ethical Standard 1 (Revised) *Code of Ethics for Assurance Practitioners* (PES 1) issued by the New Zealand Auditing and Assurance Standards Board and the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Other than in our capacity as auditor we have no relationship with, or interests in, the Trust and Group.

---

### *Information other than the financial statements and auditor's report*

The Trustees are responsible for the annual report. Our opinion on the financial statements does not cover the other information included in the annual report and we do not express any form of assurance conclusion on the other information.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

---

### *Responsibilities of the Trustees for the financial statements*

The Trustees are responsible, on behalf of the Trust, for the preparation and fair presentation of the financial statements in accordance with Public Benefit Entity Standards Reduced Disclosure Regime, and for such internal control as the Trustees determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Trustees are responsible for assessing the Trust and Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Trustees either intend to liquidate the Trust and Group or to cease operations, or have no realistic alternative but to do so.

### *Auditor's responsibilities for the audit of the financial statements*

Our objectives are to obtain reasonable assurance about whether the financial statements, as a whole, are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (NZ) and ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located at the External Reporting Board's website at:

<https://www.xrb.govt.nz/standards-for-assurance-practitioners/auditors-responsibilities/audit-report-7/>

<https://www.xrb.govt.nz/standards-for-assurance-practitioners/auditors-responsibilities/audit-report-8/>

This description forms part of our auditor's report.

### *Who we report to*

This report is made solely to the Trustees, as a body. Our audit work has been undertaken so that we might state those matters which we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Trustees, as a body, for our audit work, for this report or for the opinions we have formed.

---

The engagement partner on the audit resulting in this independent auditor's report is Robert Harris.
