# Community Trust South

## Performance Report

### For year ended 31 March 2026

*in New Zealand Dollars (\$000s)*

## TRUST INFORMATION

### Trust Entity

The financial statements represented are those for the reporting entity Community Trust South (the "Parent"), its subsidiaries and associates (together the "Group").

Community Trust South ("the Trust") is an 'in perpetuity' trust formed under the Trustee Banks Restructuring Act 1988 and was incorporated under the Charitable Trusts Act 1957, and operates under the Community Trusts Act 1999. The financial statements comply with the Financial Reporting Act 2013.

As a not-for-profit Public Benefit Entity (PBE) domiciled in Invercargill New Zealand, the Trust distributes grants to qualifying organisations in the South region, Stewart Island, Queenstown, Arrowtown and Glenorchy. Through its granting programme the Trust aspires to, achieve a thriving South by empowering communities to fulfil their aspirations, demonstrate our commitment to Te Tiriti o Waitangi principles, and to protect and grow our investment fund for the benefit of our community and future generations.

### Group Structure

Community Trust South Group consists of the Trust and its controlled entities, Invest South GP Limited and Invest South Limited Partnership. Controlled entities are all those entities over which the Trust has the power to govern the financial and operating policies of other entities so as to benefit from that entity's activities.

### Trustees

The Trust is governed by a Board consisting of up to ten trustees appointed by the Minister of Finance. Trustees are appointed for an initial term of up to four years and may, at the conclusion of their term, be appointed for a further term of up to four years. The Governance Charter provides the framework under which the Board and its Committees operate.

Trustees at 31 March 2026 were

| Trustee                          | Date Appointed |
|----------------------------------|----------------|
| Margot Hishon (Chair)            | January 2025   |
| Bridgette Smith (Deputy Chair)   | January 2025   |
| Stephen Canny                    | June 2019      |
| Mel Montgomery                   | August 2021    |
| Maira Pera (Manawhenua endorsed) | January 2025   |
| Sam Grant                        | January 2025   |
| Warren Skerrett                  | January 2025   |
| Garry Hopcroft                   | January 2026   |
| Megan Templeton                  | January 2026   |

Trustee changes during the financial year were:

|               |                                      |
|---------------|--------------------------------------|
| Bharat Guha   | January 2025 (Retired December 2025) |
| Leanne Samuel | August 2021 (Retired January 2026)   |
| Leon Hartnett | August 2021 (Retired January 2026)   |

The Board's workload is allocated to the following Committees:

- Investment
- CEO performance review
- Audit, finance and risk management
- Te Whai Hua

# OUR STATEMENT OF SERVICE PERFORMANCE

For year ended 31 March 2026

## OUR TRUST AND WHY WE EXIST

Governed by a Board of up to 10 Trustees who are appointed by the Minister of Finance for terms of four years, Community Trust South is the guardian of a community endowment of over \$260million designed to support charitable, philanthropic, and recreational support in the Trust's rohe (region). Our rohe covers Southland, Queenstown, Glenorchy, Arrowtown, Tapanui and Heriot areas.

The principal responsibility of the Board is to invest the assets of the Trust across a diversified portfolio to sustainably deliver returns. The Trust then distributes these returns in the most impactful way through grants, community loans and individual scholarships. This granting, in conjunction with community engagement is designed to build capacity, governance skills, and leadership pathways across our communities which supports the Trust's purpose of 'empowering communities to fulfil their aspirations'. At the heart of this, is the Trust's commitment to Te Tiriti o Waitangi and community led climate action.

## OUR STRATEGIC POU

Our strategic aspiration – A thriving south - Murihiku manawa tōnui – sets the strategic focus areas in the near and medium term which will enable the Trust to deliver real impact in our communities. It is these three pou that guide the Trust's actions and funding decisions.

**Strong foundations | tūāpapa Torokaha**  
Enabling the conditions for our communities to thrive

**People & places | Toitu Te Tangata Toitu te Whenua**  
Supporting people and places which enhance communities so that all people can lead fulfilling lives

**Sustainability & Climate | Toitutanga me te Ahuarangi**  
Supporting communities to connect to their environment so that it can thrive for future generations

## COMMUNITY ENGAGEMENT

In 2025/26, the Trust partnered with Te Rourou One Foundation to deliver *Impact Unpacked: Telling the Story of Your Mahi*. This initiative supported community organisations to strengthen their understanding of impact, develop practical tools to identify outcomes, indicators and metrics, and build capability to combine data with storytelling to produce clear, compelling impact reports.

During 2025/26, the Trust also continued to deliver a comprehensive package aimed at strengthening community leadership across the region. This included partnering with grantees to ensure access to high-quality learning and development opportunities, such as:

- Providing free access to the Institute of Directors (IOD) Not-for-Profit Governance Course
- Offering scholarships for not-for-profit representatives to attend the Southland Chamber of Commerce Leadership Academy and other Leadership programmes
- Grant funding to Huddl, a Queenstown-based capability support provider
- Ongoing support for a Board intern who has completed her first year in the role. A midpoint evaluation to be completed in June 2026. The Trust provided funding for the Board intern to attend the Southland Corporate Governance Intern Programme

The community sector is facing increasing complexity alongside reduced funding. To thrive in this environment, organisations require more than financial support, they need strong capability. The Trust remains committed to supporting communities through these changing conditions. As traditional grant funding becomes more constrained, the Trust recognises the need to extend its role beyond funding alone. Building on the existing Grants Plus approach, the *Capability Collective* has been developed as a strategic response, designed to strengthen the foundations of community organisations through targeted capability building, practical tools, and shared learning opportunities.

# OUR STATEMENT OF SERVICE PERFORMANCE

For year ended 31 March 2026

## EMPOWERING COMMUNITIES

Through partnership and funding, the Trust has provided opportunities for people within our rohe (region) to attend courses that enhance, grow and foster learnings.

## OUR INVESTMENT PERFORMANCE

Guided by the Trust SIPO which prescribes the growth/income allocation at 76/24, our Investment Committee, supported by an Investment Advisor oversees the Trust's investments with the aim of restoring our investment portfolio value to its inflation-adjusted capital base over the long term. The negative Grants Reserve indicates the dollar value of capital restoration required, being \$60.2m (2024/25: \$59.5m).

For the year ended 31 March 2026, the Trust's investment portfolio generated a return of 6.2%. Over the same period, the Trust's investment objective (CPI+4%) was 7.1%. Over the past five years, the Trust has generated a return of 4.0% p.a. relative to its investment objective of 8.6% p.a.

Over the past 12 months the Trust has undergone some material changes in its strategic asset allocation, including adding a new 10% allocation to the Growth Alternatives asset class by reducing the exposure to NZ Equities, NZ Cash, NZ Bonds and Global Bonds. This was only partially funded as of 31 March 2026. Further changes were the addition of a second Unlisted Property manager in Blackstone. The changes have been made to diversify risk away from equity markets and to increase the overall risk taken by the Trust to increase the probability of it meeting its investment objective.

|                                | 2026                           | 2025                           |

| Queenstown Lakes District Council – Wakatipu (23.3% of rohe population <sup>2</sup> ) | \$798,035 (13.7%)                  | \$758,368 (13.2%)                  |
| Clutha District Council – West Otago (1.7% of rohe population <sup>2</sup> )          | \$44,889 (0.8%)                    | \$64,691 (1.1%)                    |

### Our Te Tiriti o Waitangi Journey

Te Whai Hui, a sub-committee of the Board, assists the Trust in embedding our commitment into our culture and mahi (work). Enhancing collective understanding of Te Tiriti o Waitangi ensures we are better able to reflect our commitment in practice and throughout 2025/26 opportunities were provided for Trustees and staff to enhance their understanding and upskill in areas such as te reo and tikanga.

**Community Trust South**  
**Performance Report**  
**For year ended 31 March 2026**  
*in New Zealand Dollars (\$000s)*

**STATEMENT OF ACCOUNTING POLICIES AND EXPLANATORY NOTES**

**1. Reporting entity**

The financial statements represented are those for the reporting entity Community Trust South (the "Parent"), its subsidiaries and associates (together the "Group").

Community Trust South ("the Trust") is an 'in perpetuity' trust formed under the Trustee Banks Restructuring Act 1988 and was incorporated under the Charitable Trusts Act 1957, and operates under the Community Trusts Act 1999. The financial statements comply with the Financial Reporting Act 2013.

These financial statements have been approved for issue by the Trustees on 19 August 2026.

**2. Statement of Accounting Policies**

**Statement of Compliance**

The financial statements of the group have been prepared in accordance with Generally Accepted Accounting Practice in New Zealand ("NZ GAAP"). The Parent and Group are considered public benefit entities for financial reporting purposes.

The financial statements comply with Public Benefit Entity Standards Reduced Disclosure Regime ("PBE Standards RDR") as appropriate for Tier 2 not-for-profit public benefit entities as its primary objective is for community benefit.

The group qualifies and has elected to prepare financial statements as a Tier 2 reporting entity as total expenditure is less than \$33 million, and the group is not considered publicly accountable as defined by XRB A1.

**(a) Basis of preparation**

The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

*(i) Historical cost convention*

The financial statements have been prepared on the basis of historical cost as modified by the revaluation of certain assets as identified in specific accounting policies below.

*(ii) Presentation and functional currency*

These financial statements are presented in New Zealand dollars, which is the Parent and Group's functional and presentation currency. All figures are rounded to the nearest thousand dollars.

*(iii) Going concern assumption*

These financial statements have been prepared on a going concern basis.

*(iv) Accounting policies*

Accounting policies are selected and applied in a manner which ensures that the resulting financial information satisfies the concepts of relevance and reliability, thereby ensuring that the substance of the underlying transactions or other events is reported.

*(v) Estimates & Judgements*

The preparation of financial statements requires management to make judgements, estimates and assumptions about carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

In particular, information about significant areas of estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amount recognised in the financial statements relate to the valuation of investment and are discussed further in note 11.

**(b) Principles of consolidation**

The Group financial statements incorporate the financial statements of the Trust and all entities controlled by the Trust (its subsidiaries) that comprise the Group, being Community Trust South (the parent entity) and its controlled entities, Invest South GP Limited and Invest South Limited Partnership.

Controlled entities are all those entities over which the Group has the power to govern the financial and operating policies of other entities so as to benefit from that entity's activities. The financial statements of the controlled entities are consolidated from the date on which control commences until the date on which control ceases.

The consolidation of the Parent and subsidiaries involves adding together like terms of assets, liabilities, income and expenses on a line-by-line basis. All significant intra-group balances are eliminated on consolidation of Group financial position, performance and cash flows.

**Community Trust South**  
**Performance Report**  
**For year ended 31 March 2026**  
*in New Zealand Dollars (\$000s)*

**2. Statement of Accounting Policies (continued)**

*(i) Associates*

Associates are all entities over which the Group has significant influence but not control, generally evidenced by a holding of between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting and are initially recognised at cost. The Group's share of its associates' post-acquisition profits or losses is recognised in the surplus or deficit for the year, and its share of post-acquisition movements in reserves is recognised in other comprehensive revenue and expense.

**(c) Income tax**

The Parent is exempt from income tax under section CW52 of the Income Tax Act 2007.

The Group's current year income tax for the period is calculated by reference to the amount of income taxes payable or recoverable in respect of the taxable profit or tax loss for the period. It is calculated using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Current tax for current and prior periods is recognised as a liability (or asset) to the extent that it is unpaid (or refundable).

**(d) Revenue from investments**

Revenue from investments includes interest, dividends, realised and unrealised gains and losses related to investments classified as fair value through revenue and expense.

*(ii) Interest income*

Interest income is recognised using the effective interest method.

*(iii) Dividend income*

Dividend income is recognised when the right to receive payment is established.

**(e) Goods and Services Tax (GST)**

The statements of comprehensive revenue and expense have been prepared so that all components are stated exclusive of GST. All items in the statements of financial position are stated net of GST, with the exception of receivables and payables, which include GST invoiced.

**(f) Impairment of non financial assets**

All non-financial assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use.

Cash-generating assets are assets held with the primary objective of generating a commercial return. An asset generates a commercial return when it is deployed in a manner consistent with that adopted by a profit-oriented entity.

For cash generating assets, value in use is determined by estimating future cash flows from the use and ultimate disposal of the asset and discounting these to their present value using a pre-tax discount rate that reflects current market rates and the risks specific to the assets.

For non-cash generating assets, value in use is determined using an approach based on either a depreciated replacement cost approach, restoration cost approach, or a service units approach - depending on the nature of the asset and impairment, and the availability of information.

**(g) Property, plant & equipment**

All plant and equipment are stated at cost less depreciation and impairment. The cost of purchased assets includes the original purchase consideration given to acquire the assets, and the value of other directly attributable costs that have been incurred in bringing the assets to the location and condition necessary for their intended service.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All repairs and maintenance are charged to the Statements of Comprehensive Revenue and Expenses during the financial period in which they are incurred.

Depreciation is charged so as to write off the cost of assets, other than freehold land, over their estimated useful lives, using the straight-line or diminishing value method. The estimated useful lives, residual values and depreciation methods are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis.

The following rates have been used:

|                       |           |               |
|-----------------------|-----------|---------------|
| Buildings             | 1.5-12.5% | Straight line |
| Plant & equipment     | 8-80%     | Straight line |
| Leasehold alterations | 3-40%     | Straight line |
| Office equipment      | 8-67%     | Straight line |
| Motor Vehicles        | 13.5%     | Straight line |

**Community Trust South**  
**Performance Report**  
**For year ended 31 March 2026**  
*in New Zealand Dollars (\$000s)*

**2. Statement of Accounting Policies (continued)**

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the surplus or deficit for the year.

Land and buildings are measured at fair value and were revalued at 31 March 2025. Fair value is determined on the basis of an independent valuation prepared by external valuation experts, based on a discounted cash flows or capitalisation of net income approach. The fair values are recognised in the financial statements of the Trust and are reviewed at the end of each reporting period to ensure the carrying value of land and buildings is not materially different from their fair values.

Any revaluation increase arising on the revaluation of land and buildings is credited to the asset revaluation reserve, except to the extent that it reverses a revaluation decrease for the same asset previously recognised as an expense in surplus or deficit, in which case the increase is credited to the surplus or deficit to the extent of the decrease previously charged. A decrease in the carrying amount arising on the revaluation of land and buildings is charged as an expense in the surplus or deficit to the extent it exceeds the balance, if any, held in the asset revaluation reserve relating to a previous revaluation of the asset.

Depreciation on revalued buildings is charged to surplus or deficit. On the subsequent sale of the revalued property, the attributable revaluation surplus remaining in the asset revaluation reserve, net of any related deferred taxes, is transferred directly to retained earnings.

**(h) Trade and other receivables**

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost, less provision for doubtful debts.

**(i) Cash and cash equivalents**

Cash and cash equivalents includes cash on hand, bank overdrafts, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less.

The Trust has a Business MasterCard, this has a \$10,000 limit.

**(j) Foreign currency translation**

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the surplus or deficit.

**(k) Employee entitlement**

Liabilities for wages and salaries (including non-monetary benefits and annual leave) to be settled within 12 months of the reporting date are recognised in employee entitlements in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled. Liabilities for non-accumulating sick leave are recognised when the leave is taken and measured at the rates paid or payable.

**(l) Investments in subsidiaries and associates**

Investment in subsidiaries and associates in the parent financial statements are stated at cost less any impairment losses.

**(m) Trade and other payables**

Trade and other payables are initially recognised at fair value and are subsequently measured at amortised cost using the effective interest rate method.

**(n) Statements of cash flows**

The Statements of Cash Flows are prepared exclusive of goods and services tax (GST), which is consistent with the method used in the statements of comprehensive income.

'Operating activities' represents all transactions and other events that are not investing or financing activities.

'Investing activities' are those activities relating to the acquisition and disposal of property, plant & equipment and investments.

**(o) Financial assets and liabilities**

**(i) Investments**

Investments are recognised and derecognised on trade date where the purchase or sale of an investment is under a contract whose terms require delivery of the investment within the time frame established by the market concerned, and are recognised at fair value through surplus or deficit.

**Community Trust South**  
**Performance Report**  
**For year ended 31 March 2026**  
*in New Zealand Dollars (\$000s)*

**2. Statement of Accounting Policies (continued)**

*(ii) Financial assets at fair value through surplus or deficit*

The Group classifies its managed funds and investments in listed and unlisted equities as financial assets at fair value through surplus or deficit. These financial assets are designated by management at fair value through surplus or deficit at inception.

Financial assets designated at fair value through surplus or deficit at inception are those that are managed and their performance evaluated on a fair value basis in accordance with the Trust's documented investment strategy and for which information is provided internally to key management personnel on that basis.

After initial recognition investments are managed at their fair value through surplus or deficit. Revaluations are undertaken at each reporting date based on the methodologies outlined in PBE IPSAS 41 Financial Instruments. All realised and unrealised gains and losses are recognised in the Consolidated Statement of Comprehensive Revenue and Expense. Associated transaction costs are recognised in revenue or expense as incurred.

Investments are derecognised when the rights to receive cash flows from the managed funds have expired or the Group has transferred substantially all risks and rewards of ownership.

*(iii) Loans and receivables*

Accounts receivable, advances to third parties, short term deposits and trust advances are carried at amortised cost using the effective interest method less impairment.

Concessionary loans issued are loans issued to third parties at rates and/or terms below market. Any difference between fair value and transaction price of the concessionary loan at initial recognition is recognised as a finance cost in surplus or deficit.

*(iv) Impairment of financial assets*

Financial assets, other than those at fair value through surplus or deficit, are assessed for indicators of impairment at each balance sheet date. Financial assets are impaired where there is objective evidence that as a result of one or more events that occurred after the initial recognition of the financial asset the estimated future cash flows of the investment have been impacted. For financial assets carried at amortised cost, the amount of the impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of accounts receivable where the carrying amount is reduced through the use of an allowance account. When a trade receivable is uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognised in surplus or deficit.

**3. Revenue from Investments**

|                                                                        | Group         |               | Parent        |               |

5. Grants

Grants to eligible organisations are recognised as an expense in the Statement of Comprehensive Revenue and Expense when they are approved by the Trustees of the Group. Payments to grant recipients are made on the satisfaction of specified funding conditions. Grants covering multiple years are recognised as a commitment in principal for future years.

|                                                       | Group        |              | Parent       |              |

Generally concessionary loans to not-for-profit organisations are at below market interest rates and may be interest free, secured where possible by a first ranking mortgage over real property. To comply with PBE Standards, the relevant market interest rate is used to discount all contractual cash flows of principal and interest payments back to present value. Concessionary loans have been discounted to present value at the assessed market rate of 5.89% (2025: 6.74%). This has resulted in \$232,303 being recorded as income this year (2025: Expense of \$411,940). The discount is unwound when loans are repaid and this is reflected in the Statement of Comprehensive Revenue and Expenses.

**7. Loan Receivables continued**

Impact Investment Loan  
Invercargill Central Ltd (ICL)

| Group  |        | Parent |        |
|--------|--------|--------|--------|
| 2026   | 2025   | 2026   | 2025   |
| 20,265 | 20,265 | 20,265 | 20,265 |
| 20,265 | 20,265 | 20,265 | 20,265 |

Impact investments are investments made with the intent to generate a measurable positive social or environment impact alongside an investment return and on the basis that the value of the expected social or environment impact exceeds the value of any lost investment return. The ICL investment is for a 15 year term, with an interest rate of 4%pa on the original \$20,000,000 investment. The investment is recorded at cost plus accrued interest to date less any assessed impairment.

| Investments in Unlisted equities                         | (316)  | 1,735  | - | - |
|                                                          | (316)  | 1,735  | - | - |

**10. Investment in Subsidiaries**

The consolidated financial statements incorporate the assets, liabilities, and results of the following subsidiaries in accordance with the accounting policy described in note 2(b):

Subsidiaries are incorporated in New Zealand.

| Subsidiaries                     | Percentage Held |      | Balance Date | Principal Activity             |
|----------------------------------|-----------------|------|--------------|--------------------------------|
|                                  | 2026            | 2025 |              |                                |
| Invest South GP Limited          | 100%            | 100% | 31 March     | Investment management services |
| Invest South Limited Partnership | 100%            | 100% | 31 March     | Private equity investment      |

**11. Investment in Managed Funds**

The portfolio is invested in pooled funds managed by 17 investment managers (2025: 16) recommended by the Trust's Investment Advisor, Jana, and approved by the Investment Committee and Board of Trustees. Investments are held and priced by the investment managers. The Trust is not involved with the analysis, sale or purchase of individual asset securities. Each asset grouping and the portfolio as a whole is measured against an appropriate internationally accepted standard benchmark or index.

Exposure to currency, interest rate and credit risk arises in the normal course of the investment managers' management of the managed funds. A range of hedging policies are in place whereby the investment managers use derivative financial instruments as a means of managing exposure to fluctuations in foreign exchange rates and interest rates. While these financial instruments are subject to the risk of market rates changing subsequent to acquisition, such changes would generally be offset by opposite effects and the items being hedged.

**Fair Value Measurement**

The following table details the basis for the valuation of financial assets measured at fair value. This includes those financial assets that are fair valued through the surplus or deficit. Fair value is the amount for which an asset could be exchanged or a liability settled, between knowledgeable, willing parties in an arm's length transaction. Fair Value may be determined using different methods depending on the type of asset.

| Asset category                | Basis of fair value measurement                                                                                                                                                                                                                                                      |

| Overseas fixed interest       |                                                                                                                                                                                                                                                                                      |
| Private Credit                |                                                                                                                                                                                                                                                                                      |
| Australasian private equities | The fair value is based on net asset value of the private equity partnership, determined using valuation techniques such as market multiples, discounted cashflows and precedent transactions using observable inputs where available.                                               |

**12. Financial Instruments**

**Financial Risk Management**

The Group's activities expose it to a variety of financial risks including market risk (including fair value interest rate risk, cash flow interest rate risk, currency risk, and equity price risk), credit risk and liquidity risk.

The Group has policies to manage the risks associated with financial instruments. The Group is risk averse and seeks to minimise exposure from its treasury activities. The Group has established investment policies. These policies do not allow any transactions that are speculative in nature to be entered into.

**Market Risk**

The Group's activities expose it primarily to the financial risks of changes in foreign currency exchange rates, interest rates and equity prices. There has been no change to the Group's exposure to market risks or in the manner it manages and measures the risk.

The investment valuations are based on the prevailing economic, market and other conditions as at 31 March 2026. Such conditions can change significantly over relatively short periods of time. The situation is continuing to evolve, and many uncertainties remain as to the effect that it will have on the Group and the broader domestic and global economies.

The measures the Trustees have put in place to manage these risks are:

- to retain an investment advisor to advise the Trust as to appropriate investment objectives, policies, and strategies;
- to use external fund managers to undertake the management of the investments; and
- to operate a widely diversified portfolio of investments.

**Community Trust South**  
**Performance Report**  
**For year ended 31 March 2026**  
*in New Zealand Dollars (\$000s)*

**12. Financial Instruments continued**

**(i) Interest Rate Risk**

Interest rate risk is the risk that the fair value of a financial instrument will fluctuate due to changes in market interest rates. The Group's exposure to fair value interest rate risk is limited to its fixed rate cash at bank and fixed rate cash and fixed interest deposits with fund managers.

**(ii) Currency Risk**

Currency risk is the risk that the value of a foreign currency denominated financial instrument will fluctuate due to changes in foreign exchange rates. The Group is exposed to foreign currency risk both directly through investments denominated in a foreign currency, and also indirectly where fund managers invest in foreign currency securities.

**(iv) Equity Price Risk**

The Group is exposed to equity price risk. This arises from managed funds held by the Trust and classified as financial assets at fair value through surplus or deficit.

**Credit Risk Management**

Credit risk is the risk that a third party will default on its obligation to the Group, causing the Group to incur a loss.

The Group manages credit risk through a diversified and non-correlated basket of investments across traditional and alternative asset classes. The Group further limits risk through its policy of placing managed funds with eleven separate fund managers, with each fund manager having an investment mandate which requires that they diversify their instruments on the Group's behalf. The Group has sought and obtained the advice of professional investment advisors prior to making its investment allocations and placement decisions.

**Liquidity Risk Management**

Liquidity risk is the risk that the Group will encounter difficulty raising liquid funds to meet commitments as they fall due.

In meeting its liquidity requirements, the Group maintains a target level of investments that collectively provide liquidity equivalent to an average level of two years' grant distributions allowing for expected interest income.

**Capital Risk Management**

The Group's objective when managing Group capital is to safeguard its ability to continue as a going concern so that it can continue to provide returns for the community. The capital structure of the Group consists of Group capital and reserves. The Trustees review the Trust funds and risks associated with the Trust funds, with advice and guidance from the Trust's investment advisor.

Following the sale of the Trust's shares in Trust Bank New Zealand Limited in April 1996 for \$158,460,000, the Trustees agreed that the value of the Trust at that time should be maintained for the benefit of current and future generations living in the region. For this purpose the Trustees agreed that \$158,460,000 would be considered as the "Trust Capital" value of the Trust. Trustees further agreed that over the long term the net assets of the Trust would not be allowed to reduce to a level below the inflation-adjusted real value of this Trust Capital.

Recognising that actual returns are likely to fluctuate from year to year, the Trust aims to build a reserve above the inflation-adjusted Trust capital so that in years when investment returns are less than the target, sufficient funds are available to meet expenditure and make distributions. The Trust has a negative reserve which indicates that expenditure and grant distributions have been funded from the inflation-adjusted capital base. The Trust fund has fallen below the value that needs to be maintained for the benefit of current and future generations, the level of targeted and actual expenditure and distributions are reviewed by the AFRM Committee and Board.

The Trust's spending policy (including both granting and operational expenditure) is to not exceed 3.75% of the Trust's average equity over the previous 20 quarters. This amount has been calculated based on the Trustees' long-term investment expectations, together with the objective of rebuilding the capital value of the fund for the benefit of current and future generations. Capital rebuild and the robustness of the community sector in the Trust's area, will be considerations in any decision to increase or decrease the spending budget. As a result, there may be fluctuations between the level of targeted and actual expenditure and distributions.

The Trust uses the services of an investment advisor to pursue an investment policy considered appropriate for the Trust. The Policy aims to achieve a long-term asset allocation as follows:

|                                  | Benchmark   | Range      | Actual      |
|----------------------------------|-------------|------------|-------------|

**Fair Values**

Although the General Partner uses its best judgement in estimating the fair value of investments, there are inherent limitations in any estimation techniques. The fair value estimates presented herein are not necessarily indicative of an amount the Group could realise in a current transaction.

PBE IPSAS 30 requires the Group to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy shall have the following Levels:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities,

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices), and

Level 3 – Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The Level in the fair value hierarchy within which the fair value measurement is categorised in its entirety should be determined on the basis of the lowest Level input that is significant to the fair value measurement in its entirety.

The determination of what constitutes 'observable' requires significant judgement by the General Partner. The General Partner considers observable data to be market data that is readily available, regularly distributable or updated, reliable and verifiable, not proprietary and provided by independent sources that are actively involved in the relevant market.

The following table analyses within the fair value hierarchy the Group's financial assets (by class) measured at fair value on the Statement of Financial Position.

| 31 March 2026                                                            | Level 1       | Level 2                     | Level 3         | Total          |
|--------------------------------------------------------------------------|---------------|-----------------------------|-----------------|----------------|
| Financial assets at fair value through profit or loss                    |               |                             |                 |                |
| Investment in managed funds                                              | 64,162        | 104,382                     | 54,380          | 222,924        |

Included in profit or loss for the year is a net loss of \$316,175 (31 March 2025: net profit of \$1,735,327) relating to level 3 assets held at the end of the reporting year. Fair value gains or losses on those assets are included in "change in fair value of financial assets at FVTPL" in the statement of comprehensive income. Investments whose values are based on quoted market prices in active markets, and are therefore classified within Level 1, include listed equity securities and investments in listed bond funds.

Loans receivable carried at amortised cost using the effective interest method less impairment. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset, or where appropriate, a shorter period, to the net carrying amount of the financial asset.

It is the Trustees' determination that the transaction price is the best evidence of fair value for unlisted equities. Therefore, where possible they have used recent share purchase/offer price to determine the fair value of unlisted equities. If there have been no recent share transactions or offers, then a valuation is requested to determine the fair value.

A revaluation of freehold land and buildings was completed in March 2025. The values listed are those calculated by CBRE, an independent valuer at that date less an annual depreciation allowance. Refer to the policy which is outlined within Note 2(h).

**14. Grant Obligations**

Grants approved by the Board but unpaid at balance date are recognised as Current Liabilities. For grants that cover multiple years, the portion that relates to future years, which have been approved in principal by the Board are recognised as Non-Current Liabilities.

Commitments of \$6,137,419 (2025: \$9,089,052) exist for grants of the Group and \$6,137,419 (2025: \$9,089,052) for the Parent which will be distributed from either capital or income sources in future years.

*in New Zealand Dollars (\$000s)*

**15. Trust Capital continued**

*(i) Trust Capital*

Trust Capital represents the realised value of its original asset, being shares in Trust Bank New Zealand.

*(ii) Capital Maintenance Reserve*

The Capital Maintenance Reserve represents the additional amount necessary to preserve the real value of the Trust Capital allowing for inflation as measured by the Consumers Price Index (all groups).

*(iii) Grants Maintenance Reserve*

The Grants Maintenance Reserve indicates whether the Trust has maintained a grants reserve over the inflation adjusted capital base. The negative reserve indicates that grants have been distributed out of the inflation adjusted capital base. In years when net income from investments is higher than both inflation and granting levels, surplus income is transferred to this reserve. In years when both inflation and granting levels are higher than net investment income, the resulting deficit further decreases this reserve.

*(iv) Asset Maintenance Reserve*

The Asset Revaluation Reserve reflects the gains/(losses) resulting from the revaluation of land and buildings. These movements in fair value are reflected through the Statement of Comprehensive Revenue and Expense.

**16. Key Management Personnel**

The compensation of the Executives, Trustees & Directors, being the key management personnel is set out below:

|                                                       | Group       |             | Parent      |             |

**17. Related Party Transactions**

**Transactions with Key Management Personnel**

Key management personnel declared interests in relation to organisations that grants were approved during the year. Interests were declared when these grants were considered, and key management took no part in the grant assessment or deliberations relating to organisations they had an interest in.

*(i) Conflicts of interest*

During the year, trustees and staff were required to declare when they had either a direct or indirect conflict of interest in a matter being considered by the Trust. During the course of the year, 44 such instances were recorded (2025: 20). A register of those interests is available on the Trust website.

*(ii) Related party transactions*

Related party transactions arise when an entity or person(s) has the ability to significantly influence the financials, and operating policies. Interests classified as related party are disclosed below. There was \$653,000 payable at balance date (2025: \$202,296).

| Trustees      | Recipient organisation                           | Nature of related party | Transaction | 2026    | 2025    |

# Independent Auditor's Report

To the trustees of Community Trust South

## Report on the audit of the Trust and Group financial report

### Opinion

We have audited the accompanying Trust and Group financial report which comprises:

- the Trust and Group statement of financial position as at 31 March 2026;
- the Trust and Group statements of comprehensive revenue and expense, changes in equity and cash flows for the year then ended;
- notes, including a summary of significant accounting policies and other explanatory information; and
- the Trust and Group statement of service performance on pages 4 to 6.

In our opinion, the accompanying Trust and group financial report of Community Trust South (the **Trust**) and its subsidiaries (the **Group**) on pages 4 to 28 presents fairly in all material respects:

- the Trust and Group's financial position as at 31 March 2026 and its comprehensive revenue and expense, changes in equity and cash flows for the year ended on that date; and
- the service performance for year ended 31 March 2026 in that the service performance information is appropriate and meaningful and prepared in accordance with the Trust and Group's measurement bases or evaluation methods.
- In accordance with Public Benefit Entity Standards Reduced Disclosure Regime (**PBE Standards RDR**) issued by the New Zealand Accounting Standards Board.

### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (New Zealand) (**ISAs (NZ)**) and the audit of the statement of service performance in accordance with the New Zealand Auditing Standard 1 (Revised) *The Audit of Service Performance Information* (**NZ AS 1 (Revised)**). We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of Community Trust South in accordance with Professional and Ethical Standard 1 International Code of Ethics for Assurance Practitioners (Including International Independence Standards) (New Zealand) issued by the New Zealand Auditing and Assurance Standards Board and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (**IESBA Code**), and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

Our responsibilities under ISAs (NZ) and NZ AS 1 (Revised) are further described in the *Auditor's responsibilities for the audit of the Trust and Group financial report* section of our report.

Other than in our capacity as auditor we have no relationship with, or interests in, the Trust and Group.

## Other information

The trustees, on behalf of the Trust and Group, are responsible for the other information. The other information comprises information included in the Annual Report, but does not include the Trust and Group financial report and our auditor's report thereon.

Our opinion on the Trust and Group financial report does not cover any other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Trust and Group financial report our responsibility is to read the other information and in doing so, consider whether the other information is materially inconsistent with the Trust and Group financial report or our knowledge obtained in the audit or otherwise appears materially misstated.

If, based on the work we have performed, we conclude there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## Use of this independent auditor's report

This independent auditor's report is made solely to the trustees. Our audit work has been undertaken so that we might state to the trustees those matters we are required to state to them in the independent auditor's report and for no other purpose. To the fullest extent permitted by law, none of KPMG, any entities directly or indirectly controlled by KPMG, or any of their respective members or employees, accept or assume any responsibility and deny all liability to anyone other than the trustees for our audit work, this independent auditor's report, or any of the opinions we have formed.

## Responsibilities of trustees for the Trust and Group financial report

The trustees, on behalf of the Trust and Group, are responsible for:

- the preparation and fair presentation of the Trust and Group financial report in accordance with PBE Standards RDR issued by the New Zealand Accounting Standards Board;
- implementing the necessary internal control to enable the preparation of a Trust and Group financial report that is free from material misstatement, whether due to fraud or error;
- the selection of elements/aspects of service performance, performance measures and/or descriptions and measurement bases or evaluation methods that present service performance information that is appropriate and meaningful in accordance with PBE Standards RDR;
- the preparation and fair presentation of service performance information in accordance with the entity's measurement bases or evaluation methods, in accordance with PBE Standards RDR;
- overall presentation, structure and content of the service performance information in accordance with PBE Standards RDR; and
- assessing the ability of the Trust and Group to continue as a going concern. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate or to cease operations or have no realistic alternative but to do so.

## Auditor's responsibilities for the audit of the Trust and Group financial report

Our objective is:

- to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error; and
- to issue an independent auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance but it is not a guarantee that an audit conducted in accordance with ISAs NZ and NZ AS 1 (Revised) will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate and collectively, they could reasonably be expected to influence the economic decisions of users taken on the basis of the Trust and Group financial report.

A further description of our responsibilities for the audit of the Trust and Group financial report is located at the External Reporting Board (XRB) website at:

<https://www.xrb.govt.nz/standards/assurance-standards/auditors-responsibilities/audit-report-13-1/>

This description forms part of our independent auditor's report.
